

COSMETOLOGY STUDIES

SECTION H: LINKAGES/TRANSITIONS

This section of the Guide has been designed to provide an overview of linkages and transitions of CTS modules with a number of organizations. The charts and information presented in this section will assist CTS students and teachers in understanding the potential application of CTS modules as students move into the workplace.

LINKAGES/TRANSITIONS

There are a variety of linkages and transitions within Cosmetology Studies and with other CTS strands. The linkages extend to a variety of post-secondary and career possibilities.

LINKAGES

With Other CTS Strands

Many CTS strands link with Cosmetology Studies. In the following strands, specific modules may be of interest to students enrolled in Cosmetology Studies modules:

Strand	Module	Linkage Opportunity
Career Transitions	<ul style="list-style-type: none"> • Project Modules 	<ul style="list-style-type: none"> • if a student undertakes an extensive project beyond the expectations of the Cosmetology Studies module • to increase the proficiency level of various cosmetology procedures identified in the Cosmetology Studies module.
Design Studies	<ul style="list-style-type: none"> • DES1020: Sketch, Draw & Model 	<ul style="list-style-type: none"> • Cosmetology students benefit from relating the design process to meeting customer needs.
Enterprise and Innovation	<ul style="list-style-type: none"> • ENT1010: Challenge & Opportunity • ENT1020: Planning a Venture • ENT2010: Analyzing Ventures • ENT2040: Implementing the Venture • ENT3010: Managing the Venture 	<ul style="list-style-type: none"> • These modules can be adapted or contextualized to support Cosmetology careers. In particular, these modules can relate to self-employment and establishing a cosmetology-related business operation.

The following CTS strands have linkages that are more general in nature:

Strand	Cosmetology-related Themes
Communication Technology	Presentation
Community Health	Hygiene and Sanitation
Financial Management	Management
Management and Marketing	Management, Salesmanship

Potential linkages of Cosmetology Studies with other CTS strands, determined by course emphasis and area of specialization, are identified in this section (see “Cosmetology Studies: Connections with Other CTS Strands” and “Cosmetology Studies in Junior High”).

With Other Secondary Programs

Cosmetology Studies has linkages with Career and Life Management, with Work Experience and with the currently available Beauty Culture 12, 22, 32 courses. Potential linkages of Cosmetology Studies with other core and complementary subject areas across the curriculum are identified in this section (see “Cosmetology Studies: Connections Across the Curriculum”).

With Practical Arts Courses

Modules in the Cosmetology Studies strand replace existing content in the Beauty Culture 12, 22 and 32 programs. A detailed correlation of the Cosmetology strand to these practical arts courses can be found in this section (see “Cosmetology Studies: Correlations with Practical Arts Courses: Beauty Culture 12, 22 and 32”).

TRANSITIONS

To The Community/Workplace

The introductory and intermediate level modules are designed to provide students with the knowledge, skills and attitudes (the basic competencies) that are required in the workplace. Some businesses welcome an individual who has the basic skills and is prepared for further training from the employer. Information from the National Occupational Classification indicates that at least five occupations in the cosmetology field can be accessed after high school (see “Cosmetology Studies: Related Occupations”). The chart, “Cosmetology Studies: Cover Route Options and Requirements,” indicates modules that may

be grouped by students seeking alternative career routes.

To Related Post-secondary Programs

Both the intermediate and advanced level modules will provide students with opportunities to decide whether they would be interested in entering into an apprenticeship in the hairstylist trade or entering the workforce in a non-designated occupation; e.g., esthetologist, manicurist, cosmetic sales. Private vocational schools and trade associations provide opportunities to enhance competency in a wide range of cosmetology-related areas. (see “Cosmetology Studies: Summary of Related Post-secondary Programs”).

CREDENTIALLING

Students may enter into an apprenticeship in the hairstylist trade if they meet entrance requirements. Entrance into apprenticeship may be attained:

- upon leaving school, if an employer is willing to indenture the applicant
- through enrollment in the Registered Apprenticeship Program
- with advanced standing (i.e., 35–55 credits) if an employer is willing to indenture the applicant.

Students successfully completing the hairstylist apprenticeship requirements are awarded a Completion of Apprenticeship Certificate and a Hairstylist Journeyman Certificate.

Additional credentialling opportunities may be available through attendance at trade shows, participation in manufacturer’s seminars and workshops and by completing specialized training in a private vocational school.
